

INTRODUCING:

## The Nexus Benefit Card

- › Reduced Premiums for 10-20% savings
- › Reduced up-front costs of up to 30%
- › No need to change carrier
- › No increased co-pays or deductibles for your employees
- › Increased cash flow – fund as needed
- › Convenient Master Card™
- › Ability to fund benefits not covered through traditional programs (Lasik surgery, gym memberships, eye glasses)
- › Increased employee satisfaction
- › Tax advantaged

**E**mployee costs are on track to double over the next decade. The Nexus Benefits Card delivers employers up-front savings of up to 30% while relieving your HR staff of an ever increasing workload of cost containment and compliance issues.

### Nexus Lines Up Your Benefits Like “Ducks in a Row”

There’s a brand new way to maximize dollars spent on employee benefits and we’re proud and excited to be able to deliver it to you!

Employees take control of their healthcare by deciding when and how they will utilize funds from a pre-paid individual account. Results are increased satisfaction for your employees and annual savings of 10-20% for your bottom line.

Your HR department is relieved of tedious administrative tasks and your employees get best-in-class benefits without straining your company’s financial backbone.

Curious? Let us arrange a free consult to discuss your company’s needs.

Afterward, we’ll design and present a customized program for your company, delivering

exactly the benefits you desire and saving you some serious money in the bargain.

**Are your ducks all in a row?**

**Watch a flock of ducklings glide along behind their mother and you witness a highly functional family unit. All in a row, they form an organized defense. A sensitively tweaked adaptation to a harsh world.**

Nexus Benefit Consulting works much the same way. Using your current carrier’s services, we strategically reposition your benefit plans to dovetail perfectly with your employee’s needs. A custom design delivering unmatched benefits with the highest return on investment possible.

**Does your Benefits Consultant take care of you like we do?**

We partner with your organization to identify issues of concern and develop strategies that bring about fundamental and lasting cost savings.

Our approach enhances both individual and group performances, creates a motivating environment, and improves productivity and operational effectiveness.
